

## Section 1. Product and company identification

Product name : **INO-FIB 9** Code : **44220**

Product description : Liquid Carpet spotter (by extraction).

Supplier/Manufacturer : *Supplier :*  
**Le Groupe Dissan**  
9280, boul. du Golf  
Anjou (Québec) Canada H1J 3A1  
Tél.: (514) 789-6363 Téléc.: (514) 352-4815  
www.dissan.com

*Manufacturer :*  
**Groupe Savon Olympic Inc.**  
2700, boul. Daniel-Johnson  
Laval (Québec), Canada H7P 5Z7  
Tél.: (450) 682-0060  
Courriel: info@savon-olympic.net

In case of emergency : Quebec Poison Control Centre (24 hours service)  
Quebec: (800) 463-5060 (no charge)  
All other places: (418) 656-8090  
CANUTEC: (613) 996-6666 (collect)

## Section 2. Hazards identification

Physical State : Liquid (transparent).  
Signal word : DANGER!  
MAY CAUSE BURN TO EYES AND SKIN.  
HARMFUL IF SWALLOWED.

## Section 3. Composition and information on ingredients

Name	CAS number	% by weight
Butoxy-2 ethanol	111-76-2	5 - 15
Sodium hydroxide	1310-73-2	1 - 5

## Section 4. First aid mesures

Eye contact : Rinse immediately with lukewarm water. Remove contact lenses and continue flushing for at least 15 minutes, occasionally lifting the upper and lower eyelids. Consult a doctor immediately.

Skin contact : Immediately flush contaminated skin with plenty of water while removing contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Consult a doctor immediately. Wash clothing and shoes before reuse.

Inhalation : Move exposed person to fresh air. In the absence of breathing, trained personnel should administer artificial respiration or oxygen. Consult a physician immediately.

Ingestion : If the person is conscious, give small quantities of water to drink. Do not induce vomiting. Never give anything by mouth to an unconscious person. Consult a doctor immediately.

## Section 5. Fire-fighting measures

Flammability of the product : No known risk of fire or explosion.

Flash point : Not available.

Extinguishing media : Use an extinguishing agent suitable for the surrounding fire.

Special exposure hazards : In the presence of fire, promptly isolate the scene by removing all persons located near the scene of the accident. Take no action involving any personal risk or without suitable training. Move containers from fire area if without risk. Cool containers exposed to flames with water spray.

Special protective equipment : It is imperative that firefighters wear appropriate protective equipment and a self contained breathing apparatus with a full facepiece operated in positive pressure mode.

## Section 6. Accidental release measures

Personal precautions	: Take no action involving any personal risk or without suitable training. Evacuate the area. Do not touch or walk through spilled material. Extinguish all ignition sources. The danger zone must be free of smoking or flames. Ensure adequate ventilation. Put on appropriate personal protective equipment.
Environmental precautions	: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods for cleaning up	: Stop leak if there is no risk. Dilute with water and mop up if water-soluble or absorb with an inert dry material and place in an appropriate container for disposal. Use spark and explosions proof tools and equipment.

## Section 7. Handling and storage

Handling	: Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapors or aerosols. Keep out of the reach of children. Use only in a well ventilated area. Keep away from sparks, heat, open flame or any other ignition source. Handle with care. Avoid splashing.
Storage	: Store in accordance with local regulations. Store away from direct sunlight in a dry, cool and well-ventilated area away from incompatible substances. Eliminate all sources of ignition. Separate from oxidizing materials. Keep container tightly closed when not in use. Do not store in unlabeled containers.

## Section 8. Exposure controls/personal protection

Technical measures	: Use only in a well ventilated area. If user operations cause vapor, aerosol or mist, use process enclosures, local exhaust ventilation at the source, or other engineering controls to keep worker exposure to the contaminants suspended in the air below the recommended or statutory limits.
Eyes	: Splash goggles.
Hands	: Wear chemical resistant protective gloves.
Respiratory tracts	: Wear appropriate respirator when ventilation is inadequate.
Other	: Wear appropriate protective clothing to eliminate any risk of skin contact.

The information contained in this document applies to the concentrated product as sold. At dilution rate recommended, the risks inherent in this product are greatly reduced. Preventive measures can be adapted according to the judgment of the employer based on experience and / or level of exposure of workers.

**Consult local authorities for values of exposure considered acceptable.**

## Section 9. Physical and chemical properties

Physical state	: Liquid transparent.
Color	: Golden.
Odor	: Pine.
pH	: 13 - 14
Boiling / condensation point	: Not available.
Melting / freezing point	: Not available.
Relative density	: 1.0 - 1.1
Solubility	: Easily soluble in cold and hot water.

## Section 10. Stability et réactivité

Chemical stability	: The product is stable.
Conditions to avoid	: Eliminate all ignition sources (sparks, flames, heat).
Materials to avoid	: Reactive or incompatible with the following materials: acids and oxidizing materials.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.

## Section 11. Toxicological information

### Potential acute health effects

- Eyes : Corrosive to eyes.  
 Skin : Corrosive to skin.  
 Inhalation : May cause irritation to the respiratory tract. The inhalation of droplets suspended in the air or aerosols may cause irritation of the respiratory tract.  
 Ingestion : May cause burns to mouth, throat and stomach.

### Potential chronic health effects

- Carcinogenic effects : No known significant effects or critical hazards.  
 Mutagenic effects : No known significant effects or critical hazards.  
 Teratogenic effects : No known significant effects or critical hazards.  
 Reproductive effects : No known significant effects or critical hazards.  
 Sensitization : No known significant effects or critical hazards.

### Toxicity data

Ingredient name	Test	Species	Result
Butoxy-2 ethanol	DL50 Oral	Rat (male)	560 mg/kg
	DL50 Oral	Rat (male)	1480 mg/kg
	DL50 Oral	Rat (male)	3000 mg/kg
	DL50 Oral	Mouse (male)	1230 mg/kg
	DL50 Oral	Guinea pig	1200 mg/kg
	DL50 Cutaneous	Rabbit	400 mg/kg
	DL50 Cutaneous	Guinea pig	207 mg/kg
	CL50	Rat (female)	450 ppm for 4 hours
	CL50	Rat (male)	486 ppm for 4 hours
	Sodium hydroxide	DL50 Cutaneous	Rabbit
DL50 Oral		Rat	>140 mg/kg

## Section 12. Ecological information

- Ecotoxicity : No known significant effects or critical hazards.  
 Biodegradability : Not available.  
 Aquatic ecotoxicity : Not available.

## Section 13. Disposal considerations

- Waste disposal : It is important to minimize or avoid the generation of waste wherever possible. Disposal of this product and solutions must always respect the provisions of the law on environmental protection and waste disposal and must remain in compliance with the requirements of local laws and regulations. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

**Diluted product used as recommended may be sent to the sewer.**

**Consult local or regional authorities.**

## Section 14. Transport information

Regulatory information	UN number	Propper shipping name	Classes	PG*	Label	Additional information
TDG Classification	UN3266	INORGANIC CORROSIVE BASIC LIQUID N.S.A. (sodium hydroxide solution)	8	III		Remarks: Limited Quantity when 5L or less.

\*PG: Packing Group

**Section 15. Regulatory information**

WHMIS (Canada) : **Class D1A: Very toxic material**  
**Class E: Corrosive material**

The product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.

**Section 16. Other information**

Date of issue : 2016-02-01  
Prepared by: : Groupe Savon Olympic Inc.
